CV

Here is my CV in an easy to navigate format. You can download a (less pretty) copy of it via the link to the right.

Basics

Name	Gabriel Chavez
Label	DevOps Apprentice at Three Knots
Email	gabrielc1925@gmail.com
Url	https://gabrielc1925.github.io/
Summary	DevOps, Cloud Services, Management experience, Doctorate of Pharmacy

2024.01 - 2099.01 DevOps Apprentice

Three Knots

Worked with Docker, VirtualBox, and AWS. Collaborated on a project to deploy a containerized website solution for mosques, with optional features and easy setup and customization

- Docker
- AWS
- Slack
- Jira
- GitHub

2021.08 - 2025.01

Pharmacy Manager in Denver

Walgreens

Worked with neglected and understaffed pharmacies to improve team culture so they can perform at their best.

- Ensured that each pharmacy was compliant with all appropriate federal standards and local regulations.
- Delivered excellent patient care in two different pharmacies, each averaging 450 prescriptions per day.
- Began the process of auditing long-neglected documentation and filing procedures to ensure legal compliance.
- Implemented changes in company policy from week to week as guidelines changed.
- Increased employee performance engagement by discussing goals and making a culture of inclusion.
- Discussed employee goals and improved communications to ensure that everyone was influencing our largest projects.
- Project management - including broad efforts to control inventory and to ensure long-term quality assurance.

2017.05 - 2021.08

Pharmacy Manager in Taos

Walgreens

Trained, managed, and developed a large number of technicians and pharmacists in customer service and safety.

- Managed pharmacist and technician budgets to ensure we were compliant legally and staffed to meet performance metrics.
- Responsible for discussing performance metrics and dispensing discipline where needed.
- Improved patient care through the use of MTM and by building a supportive network of provider

relationships.

- Accountable for financial performance and customer service of the pharmacy in relation to chain expectations.
- Provided safe and excellent patient care and counseling in a pharmacy averaging 350 prescriptions per day.
- Developed the business for the company by improving adherence and increasing reimbursement.
- Worked with store and district leadership to ensure we met or exceeded all applicable standards.
- Increased patient satisfaction significantly through a process of change and development of staff and practices.
- Completely revamped the workflow and retrained every employee in multiple systems through formal instruction.
- Led team during many large changes, including software rollout and drastic changes in roles/expectations.
- Provided emotional and educational support & encouragement during the pandemic to help peers/patients.
- Developed constructive criticism skills further and gained experience with delivering timely feedback.
- Audited employee training compliance and created work plans that worked with our budget to remain efficient.
- Being a remote location, I was responsible for creative problem solving of many types, including technical expertise.
- This store was known to be a "problem" area, and we were able to build a reliable team to rectify that.
- Build relationships with team members throughout the store and from other cities to plan and to solve problems.

2017.02 - 2017.04 **Consultant**

OLIVE TREE PHARMACY

Developed Standard Operating Procedures (SOPs) for a new business.

- Developed compounding recipes for a pharmaceutical grade cosmetic line.
- Guided product selection, marketing, and business operating procedures.
- Performed non-sterile compounding for a variety of different dosage formulations.
- Counseled on the proper use of compounded medications and possible side effects to look out for.
- Assisted in planning for future business development.

Education

2010.12 - 2013.12 Central New Mexico Community College

Pre-Pharmacy Studies

References

Michael Jerome

Pharmacy Operations Manager -
Worked with at Walgreens - Michael
was a subordinate, but was responsible
for overseeing the technicians and
worked with me daily.

Dr. Kristine Quon

Staff Pharmacist - Worked with at
Walgreens - Kristine was a subordinate,
but was the other half of the coin to
keeping the pharmacy running
smoothly. Where I put stuff down, she
picked it up and vice versa.

🔗 Taifur Asif

Main mentor in DevOps, and owner of Three Knots consulting firm. Met with him virtually for over in an async manner, to get new project ideas and help working through problems

🔗 Saad Momandi

DevOps Mentor, worked with him at Three Knots. Had weekly meetings for a while to help me work through problems
